

The earlier you engage in career related services, events and courses the more effective you will be in identifying a suitable career, gaining experience, developing networks and connections, and finding a great job. See DePaul's Career Roadmap to help guide you!

During specific core classes, faculty will inform you that you can gain extra credit by participating in the Passport program. The amount of extra credit awarded will be decided by each faculty member.

More information about Career Center events and workshops are available in the quarterly newsletter *Career Connections*, found outside the Career Center at Suite 9500, in the Commerce Undergraduate Program Office (CUPO) and on the Career Center website at www.careercenter.depaul.edu. Your professor, the CUPO and departments have details about the departmental events.

To Participate: Fill in your name and student ID, check the event you have participated in and ask an activity representative to fill in their name, stamp or sign and date the form. **Representatives will not sign or date retroactively. Hand this form to your professor within one week of the activity.**

Only activities attended during the same quarter as the required class will be eligible for extra credit. An activity will only count for extra credit in one class.
